1. [] of the Engineer Topographic Lab (ETL) of the Geographic Science Division, Fort Belvoir, informed me several months ago that he could use the [] Image Change Detector if NPIC no longer had a use for it. [] is working with ETL on an ambitious change detection program. [] has a five CRT console capable of portraying color as well as black and white. [] plans to use the [] equipment at Fort Belvoir to supplement the work at [].

2. On 22 November [] ETL visited NPIC to see the subject equipment. They appeared satisfied that the equipment functioned properly. I asked them if they could arrange for transportation of the Change Detector to Ft. Belvoir if it was decided to transfer the equipment. They thought that this could be arranged.
